DEATH DEFIER IN: "ADVERSARY: ANTS"

My full name is John Allen Wallington. In reports my three initials are used J.A.W. But in various countries in the world that use my service, I am known as "Death Defier." For wherever there is a challenge to justice, there I go I care not if I have to be on the burning sands of the desert, the freezing snows of the arctic, the highest mountains in the world, or through unknown jungle areas. All that counts is that justice must be done. And often the challenger is Death!

I was in Nairobi when the message for help came. Five hours later I was in the headquarters of Major Inbakwa.

"I need your help at once," he began. "It is a personal matter of honor and justice. I am unable to move officially. The life of a friend who once saved my life is at stake."

"At your service, Major," I replied. "Give me the details and I will swing into action."

"Not as simple as that," he sighed. "It concerns the Wamoto people. We do not want anything that would turn into a Civil War. We are having our headaches trying to unite the various tribes into a Federal type of government.

Five years ago Mlele saved my life. A spear was thrown at me. He deflected it. He is a member of the Wamoto tribe and has been doing his best to help us. As you know, there is a certain foreign power that would enjoy seeing us break up. The ruler of the Wamoto tribe declared Mlele a traitor. He will be taken to the Death Spot in the Kuzini Desert. There he will be tied to stakes in the sand. They will bring with them colonies of ants. Honey will be placed upon the sand. It will be a trail leading to the body of the victim. His death will be painful and prolonged."

"I am well aware of this age-old sentence of death," I interrupted. "But there is also a tradition that if the ants refuse to attack the victim, then the Gods have given a special judgment. He is innocent. Then his accuser must be punished!"

"That is correct," admitted Major Inbakwa. "If you can convince the ants not to do what ants have done by their nature for centuries, then I will grant that you can do the impossible. Anything you need?"

"About twenty thousand dollars in American money," I said.

"A plane at once to take me to a certain University. I will send a message to them. When I return, three cars and equipment for a trip to the desert. Get me friends of Mlele to help and take orders from me."

Two days later I was back at Major Inbakwa's headquarters. The special equipment was loaded into two cars. It was necessary to get two trucks for additional material. We were soon on our way to the Death Spot in the Kuzini Desert. We had two days in which to set up the equipment. Then the tribesmen came - by camel, on horseback, and on foot. We watched them stake out their prisoner. They acted as though we did not exist. If it came to any fighting, which was the last thing we wanted, we had sub-machine guns for each man, and also a supply of hand grenades.

It was almost fascinating to see the ants begin the trail of Death towards their victim. I was inside one of the trucks and I observed those little creatures. Now I would have to do something that never happened before in the Kuzini Desert. I went into action. The ants stopped, turned, around, and went back to their starting point.

Mlele's friends who were with me started to shout in unison: "The Gods have spoken! He is innocent! Free him! Punish his accuser!"

The ruler of the Wamoto tribe raised his hand and spoke to all.

"Untie him! He is free to stay with us or leave. I will see to it that those men who came to us and told us lies meet a special punishment."

Again we were back at Major Inbakwa's headquarters. And with us was Mlele.

"I really don't know if you used some kind of magic to control those ants. Magic bought with American dollars."

"You will get your money back," I smiled. "I left it at the University as a deposit for the Modern Magic. I used a laser beam on the ants. Affected their sense of direction. It turned them back.

Losing His Or Her Hair

If you are troubled by thinning hair dandruff itchy scalp if you fear approaching baldness read the rest of this statement carefully It may mean the difference to you between saving your hair and losing the rest of it to eventual baldness.

Baldness is simply a matter of subtraction When the number of new hairs fail to equal the number of falling hair, you end up minus your head of hair (bald). Why not avoid baldness by preventing unnecessary loss of hair? Why not turn the tide of battle on your head by eliminating needless causes of hair loss and give Nature a chance to grow more hair for you? Many of the country's dermatologists and other foremost hair and scalp specialists believe that seborrhea, a common scalp disorder, causes hair loss. What is seborrhea? It is a bacterial infection of the scalp that can eventually cause permanent damage to the hair follicles. Its visible evidence is "thinning" hair. Its end result is baldness. Its symptoms are dry, itchy scalp, dandruff, oily hair, head scales, and progressive hair loss.

So, if you are beginning to notice that your forehead is getting larger, beginning to notice that there is too much hair on your comb, beginning to be worried about the dryness of your hair, the itchyness of your scalp, the ugly dandruff — **these are Nature's Red Flags** warning you of impending baldness Even if you have been losing your hair for some time, don't let seborrhea rob you of the rest of your hair.

HOW COMATE WORKS ON YOUR SCALP

The development of an amazing new hair and scalp medicine called Comate is specifically designed to control seborrhea and stop the hair loss it causes. It offers the opportunity to thousands of men and women losing their hair to bacterial infection to reverse the battle they are now losing on their scalps. By stopping this impediment to normal hair growth, new hairs can grow as Nature intended

This is how Comate works: (1) It combines in a single scalp treatment the essential corrective factors for normal hair growth. By its rubifacient action it stimulates blood circulation to the scalp, thereby supplying more nutrition to still-alive hair follicles. (2) As a highly effective antiseptic, Comate kills on contact the seborrhea-causing scalp bacteria believed to be a cause of baldness. (3) By its keratolitic action it dissolves ugly dandruff. By tending to normalize the lubrication of the hair shaft it corrects excessively dry and oily hair It eliminates head scales and scalp itch.

In short, Comate offers you in a single treatment the best that modern medicine has developed for the preservation of your hair. There is no excuse today except ignorance for any man or woman to neglect seborrhea and pay the penalty of hair loss

COMATE IS UNCONDITIONALLY GUARANTEED

To you we offer this UNCONDITIONAL GUARANTEE. Treat your scalp to Comate in your own home, following the simple directions. See for yourself in your own mirror how after a few treatments, Comate makes your hair look thicker and alive. How Comate ends your dandruff, stops your scalp itch How Comate gives your hair a chance to grow. Most men and women report results after the first treatment, some take longer. But we say this to you. If, for any reason, you are not completely satisfied with the improvement in your own case — AT ANY TIME — return the unused portion for a prompt refund. No questions asked.

But don't delay. For the sake of your hair, order Comate today Nothing — not even Comate — can grow hair from dead follicles. Fill out the coupon now, and take the first step toward a good head of hair again.

Male pattern baldness is the cause of the great majority of cases of baldness and excessive hair loss. In such cases neither the Comate treatment nor any other treatment is effective.
